

Working together, saving lives

The Scottish Fire and Rescue Service have been working in partnership with Anthony Nolan supporting their lifesaving mission for over 13 years. During that time we have educated and recruited thousands of potential donors. Now, we are looking for our next lifesaver.

For someone with blood cancer or a blood disorder, an amazing stranger donating their stem cells could be their last chance of survival. Please consider signing up to the stem cell register at your school event...you might just save a life.

Join over 18,500 potential lifesaving donors recruited by SFRS

At your school event you will be required to complete an online form. It will be helpful to collect the following information in advance and bring it with you to the event.

Simply fill in:

Name:.....

Height & weight: (kg or St&lbs)

.....

Medical conditions & Year diagnosed:

.....

.....

Treatments:.....

.....

Contact details for someone who lives at a different address. This will help us find you if you're found to be a match but we can't get in touch
(they'll only be contacted in these circumstances)

Name:.....

Phone number:.....

Address:.....

e-mail:
